

Classification: Computer Information Technology Specialist (CITS) II
Network Support Unit - Voice Over Internet Protocol (VOIP)

Title Code: V08005

Pay Range: 33

POSITION SUMMARY:

This is an advanced position providing technical and professional consultative work in the support and coordination of computer information technology services and activities. An employee in this position provides advanced technical expertise in network administration and support, with a focus on Voice Over Internet Protocol (VOIP) unified communications administration. This position will serve as a lead on network support projects and will serve as a mentor to other staff members within the network support unit. Work generally focuses on assisting with the design, implementation, and maintenance of a state wide criminal justice network for the Missouri State Highway Patrol (MSHP), and the broader Missouri criminal justice community. Duties may also include implementation of recommendations, project management and/or provision of technical consultative services. Work is performed under general supervision; however, the employee is expected to exercise independence in the performance of assigned responsibilities.

DESCRIPTION OF DUTIES PERFORMED:

(Any one position may not include all of the duties listed nor do the listed examples include all tasks which may be found in positions of this class.)

Administers highly complex network support and deployments, to include long term and short term project and network architecture planning, installation, maintenance, and administration of switches, routers, hubs, wireless, and VOIP platforms and peripherals.

Oversees the design, implementation, and maintenance of network infrastructures within MSHP and the Missouri criminal justice community.

Provides technical expertise to successfully meet network project objectives and deadlines.

Coordinates network teams and/or projects, to include analyzing, implementing, documenting, testing, and maintaining networks.

Implements the installation and maintenance of network equipment and services, to include cabling, switches, routers, hubs, voice and data circuits, video, wireless, and/or radio technology.

Serves as team leader in providing technical and customer support related to network administration and support.

Mentor other staff members within the network support unit, to include direction and acumen relating to the installation, relocation, repair, and maintenance of network hardware.

Researches, reviews, recommends, and prepares requests for proposals and/or bid specifications for hardware and/or software purchases.

Conducts in-depth investigations regarding network issues, to include overseeing and/or analyzing, designing, testing, and implementing networks.

Classification: Computer Information Technology Specialist (CITS) II
Network Support Unit - Voice Over Internet Protocol (VOIP)

Title Code: V08005

Pay Range: 33

Page 2

Documents, reviews and updates network support policies and procedures for MSHP by reviewing, interpreting and applying industry standards.

Leads network support related projects and assigns tasks to team members.

May assist with the responsibilities of the Network Support Unit, as needed.

Performs other related work as assigned.

REQUIRED KNOWLEDGE, SKILLS, AND ABILITIES:

Considerable knowledge of the principles of computer programming and systems analysis, design, testing and documentation.

Considerable knowledge of the general operating principles and capabilities of computer hardware and software.

Considerable knowledge of networking fundamentals, routing protocols, and switch configuration.

Considerable knowledge of or ability to learn the Criminal Justice Information Services (CJIS) Security Policy.

Considerable knowledge of or ability to learn the MULES system as it relates to the technical connectivity and CJIS Security requirements.

Considerable knowledge of software reference libraries and related utility programs.

Considerable knowledge of computer security systems and procedures.

Considerable knowledge of computer networking and telecommunications.

Considerable knowledge of computer operating systems.

Working knowledge of or ability to learn the agency's automated information systems.

Working knowledge of or ability to learn the agency's functions and their interrelationships.

Working knowledge of the principles of cost benefit analysis.

Working knowledge of the principles of project management.

Working knowledge of the principles of disaster recovery.

Working knowledge of the procurement process.

Working knowledge of continuing trends and developments in computer hardware and software.

Working knowledge of various computer platforms.

Classification: Computer Information Technology Specialist (CITS) II
Network Support Unit - Voice Over Internet Protocol (VOIP)

Title Code: V08005
