

Classification: Criminalist Supervisor

Title Code: V00514

Pay Range: 29

POSITION SUMMARY: The employee in this class is responsible for the supervision and management of complex and technical work in the analysis of forensic evidence. Duties may include direct line supervision of a single accredited forensic discipline and/or administrative supervision and support of multiple accredited forensic disciplines and support staff, while maintaining proficiency-tested expertise in their assigned discipline. Supervisory responsibility may extend to the entire assigned laboratory facility. Direction is received from the management staff that makes special assignments and reviews the work through the evaluation of reports and meetings.

Employees assigned to satellite laboratories may also be responsible for the daily operations of the satellite laboratory.

DESCRIPTION OF DUTIES PERFORMED: (Any one position may not include all of the duties listed nor do the listed examples include all tasks which may be found in positions of this class.)

Provides direct line supervision of Criminalists and Laboratory Evidence Technicians (e.g. delegates work and monitors completion the same, provides guidance and technical assistance, and ensures work is performed according to legal and safe guidelines); supervises, trains criminalists, and participates in crime scene investigations.

Provides administrative supervision and support for multiple forensic disciplines and support staff at the assigned laboratory facility, while maintaining proficiency-tested expertise in their assigned discipline. Supervisory responsibility may extend to the entire assigned laboratory facility.

Performs a variety of administrative duties (e.g., reviews employee time records and approves/disapproves leave; approves expense reports; handles personnel issues and problems associated with subordinates; prepares correspondence; conducts and attends meetings; serves on committees and advisory boards, as assigned; recommends personnel decisions to management staff).

Briefs management staff on laboratory activities to include case assignment, status of pending casework, casework statistics and any other areas of concern that could become public knowledge and/or involve potential legal ramifications for the department.

Confers with other laboratory supervisors and personnel in reference to laboratory methodology, safety, current issues, scientific and legal developments, and progress of shared caseloads, etc.

Provides recommendations and assists in the development and implementation of new and revised methods of analysis to upgrade laboratory capability.

Generates and receives requests to and from other law enforcement agencies, prosecutors, attorneys, etc., regarding criminal evidence and crime laboratory procedures.

Reviews and updates standards operating procedures, training, quality control, and safety manuals, etc., within the chosen/related discipline.

Assesses submitted evidence and guides subordinates in determining which items are most likely to associate or disassociate the victim or suspect with a crime scene.

Regularly works with a variety of potentially hazardous materials (e.g., HIV, hepatitis, and/or unknown pathogen contaminated body fluid evidence; unidentified chemicals on evidence).

Regularly processes, compares, and examines submitted samples in the assigned forensic discipline.

Participates in and successfully passes practical competency and/or written test(s) prior to assuming casework using a new or updated testing method in their assigned forensic discipline.

Collates data and prepares reports; reviews and edits reports prepared by subordinates for clarity and completeness; ensures the criminalist has properly completed and attached the appropriate forms; submits reports for archiving, classification, and proper dissemination per statutory and/or department requirements.

Routinely testifies as an expert witness in a court of law while maintaining composure under intense cross-examination; prepares evidence and exhibits; trains subordinates about the role of an expert witness in legal proceedings; reviews division staff testimony and provides input, as needed.

Participates in the proficiency testing program for their forensic discipline and ensures proper monitoring and record keeping of the proficiency testing program within their supervisory scope.

Attends workshops, meetings, conferences, and seminars to gather and share information with peers as well as learn about any new developments and/or trends.

Monitors the job performance and provides appropriate feedback of subordinates; prepares and conducts a formal evaluation in consultation with the appropriate management authority.

Conducts training of law enforcement personnel about forensic analysis, collection and preservation of evidence, and chain of custody procedures.

Educates prosecuting attorneys about complex scientific analysis and serves as a technical advisor during trial proceedings.

Reviews requests for equipment, materials, and/or training by division staff; makes recommendations to the management staff and communicates decisions to the affected staff.

Confers with equipment vendors, writes specifications for new equipment, and assists in selecting successful bidders on this equipment.

May interact with television, radio, or print media personnel reference forensic science informational news spots.

Operates standard office equipment (e.g., personal computer, telephone, fax machine, copier, etc.).

Performs job-related travel, as needed.

Performs other related duties as assigned.

REQUIRED KNOWLEDGE, SKILLS, AND ABILITIES: Extensive knowledge of the procedures and methods used in the forensic analysis of submitted samples.

Extensive knowledge and practice of the safety rules and procedures associated with laboratory equipment and chemicals.
