

Classification: Traffic Safety Analyst I (Patrol Accident Records)

Title Code: V00090

Pay Range: 18

POSITION SUMMARY:

This is a highly responsible supervisory, technical and quality control position in the Patrol Accident Records Section of the Patrol Records Division. The employee in this position ensures processing of all accident reports either completed by Patrol members or involving one fatality; conducts quality control on documents submitted and data entered into the Statewide Traffic Accident Records System (STARS). The employee is responsible for processing requests/fee payments for Patrol accident reports and traffic crash statistics or data. The employee oversees the GHQ Message Center, gathering and submitting information to support the National Highway Traffic Safety Administration's Fatality Analysis Reporting System (NHTSA/FARS) and providing assistance to troop personnel on complex issues pertaining to traffic accident reporting and classification. The employee also supervises personnel assigned to the Patrol Accident Records Section. Work is subject to general review and supervision by the assistant director and/or division director for conformance with policies and procedures.

DESCRIPTION OF DUTIES PERFORMED:

(Any one position may not include all of the duties listed nor do the listed examples include all tasks which may be found in positions of this class.)

Assists upper management with the development and implementation of effective work plans for the Patrol Accident Records section and updates work flow procedures as needed; coordinates and monitors subordinates' work flow and job performance to ensure compliance with Patrol policies and procedures; provides technical assistance to subordinates; approves/disapproves leave, processes time records, provides counseling and feedback, and conducts performance evaluations.

Gathers teletypes on motor vehicle fatality crashes and encodes information into the Fatal Accident Statistics Tracking System (FASTS); reviews and codes all motor vehicle accident reports noting at least one fatality and updates information in FASTS; conducts quality control in FASTS against data in STARS and reconciles any discrepancies.

Compiles daily year-to-date fatality statistics, via MULES teletype, to Patrol Troops, MULES users, metropolitan police agencies, and the news media; forwards hardcopy statistics to the Patrol's Field Operations Bureau and NHTSA/FARS.

Provides guidance to troop personnel with questions and technical issues relating to the classification of motor vehicle accidents and the completion of the Missouri Uniform Accident Report.

Serves as liaison between the Patrol and various law enforcement agencies, attorneys, the media, etc., regarding requests/inquiries for statistics or various reports on statewide motor vehicle traffic crashes.

Assists with processing requests and/or inquiries for accident reconstruction reports and/or photographs; entering requests into the Accident Request Tracking System (TR30) and ensures established procedures are followed regarding the workflow of revenue into the Traffic Records fund.

Assists with coding, encoding, and scanning written and electronic accident reports completed by Patrol officers; proofs for accuracy; forwards error reports to officer for correction; files report upon receipt of corrected copy(s); performs and oversees quality control to ensure accuracy of STARS data.

Classification: Traffic Safety Analyst I (Patrol Accident Records)

Title Code: V00090

Pay Range: 18

Reports problems to the appropriate entity or individual on STARS, FASTS, Accident Request Tracking System and document imaging scanners.

Serves as an assistant Custodian of Records in absence of the director and assistant director by appearing in court when subpoenaed, processing requests for records, certifying traffic records as official copies of records kept as part of normal MSHP business, and controlling access to closed records.

Attends internal and external meetings regarding STARS.

Organizes and assembles required statistical and report data for various publications relating to traffic crashes; edits drafts of publications; distributes publications.

Performs other related work as assigned.

REQUIRED KNOWLEDGE, SKILLS, AND ABILITIES:

Working knowledge of the National Safety Council's Classification of Motor Vehicle Traffic Accidents.

Working knowledge of the STARS encoding requirements and quality control measures, various STARS-related codes, and the flow of crash reports/data to STARS.

Working knowledge of the Missouri Uniform Accident Report reporting requirements.

Working knowledge of the job duties of personnel assigned to the Patrol Accident Records Section.

Working knowledge of State laws and Patrol policies and procedures relating to accident reporting.

Knowledge of motor vehicle crash statistical information used in various Patrol publications and special reports.

Knowledge of effective practices and principles of supervision.

Knowledge of modern office procedures and practices.

Ability to compile statistical data for development of publications and reports.

Ability to complete quality control on data received and entered into databases.

Ability to exercise judgment and discretion and make decisions in accordance with laws, policies and regulations.

Ability to establish and maintain records and files (electronic and hardcopy).

Ability to assist with the creation and modification of work flow procedures to ensure the Patrol Accident Records Section operates efficiently and effectively.

Ability to demonstrate work techniques in the training of other employees.

Ability to plan, delegate and supervise the work of employees assigned to the non-Patrol Accident Records Section.

Ability to work independently with little supervision.

Classification: Traffic Safety Analyst I (Patrol Accident Records)

Title Code: V00090
