## FOREWORD

This publication is produced by the Missouri State Highway Patrol, Statistical Analysis Center. It is intended to provide a basic understanding of Missouri's crime problems, their characteristics, and the law enforcement actions being taken to address these.

This is the fourth report produced since the Missouri State Highway Patrol assumed management of Missouri's Uniform Crime Reporting (UCR) Program. It is the Program's responsibility to collect, maintain, and ensure the integrity of Missouri's UCR crime statistics. In addition, the UCR Program is responsible for reporting monthly crime statistics to the Federal Bureau of Investigation, Uniform Crime Reporting Section.

I encourage all criminal justice and other public officials to review this publication. If additional research or statistical information services about Missouri's crime or traffic safety problems are needed, please contact our agency's Statistical Analysis Center for assistance.

R. D. STOTTLEMYRE, Colonel  
Superintendent

## ACKNOWLEDGMENT

For the past several years, the Missouri State Highway Patrol, Uniform Crime Reporting (UCR) Program and Statistical Analysis Center (SAC) have worked with a number of agencies to move Missouri from a voluntary to a mandatory crime reporting system as mandated by RSMo 43.505. The Missouri Department of Public Safety led this initiative and their financial support to SAC and the UCR Program is appreciated. The direction and efforts of Laurie Crawford and her staff of the UCR Program are instrumental to its success.

Missouri law enforcement agencies who submit crime and employment information to the UCR Program play a critical role in development of this report. Their participation in the Program is indicative of their desire to improve Missouri's law enforcement information capabilities.

Recognition also is given to the Federal Bureau of Investigation, Uniform Crime Reporting Section and the U.S. Department of Justice, Bureau of Justice Assistance for their guidance during implementation of the Missouri UCR Program. Over the past years, the U.S. Department of Justice, Bureau of Justice Statistics has supported, through grant funds, the Missouri SAC's efforts to provide publications like *Crime in Missouri* and other information services to the Missouri criminal justice community. Their financial support and technical assistance are appreciated.

Ronald G. Beck, Director  
Missouri Statistical Analysis Center

## EXECUTIVE SUMMARY

This Digest is produced annually by the Missouri State Highway Patrol (MSHP), Statistical Analysis Center (SAC). In the past, the primary source of data was law enforcement agencies who voluntarily submitted crime statistics to the Federal Bureau of Investigation's (FBI) Uniform Crime Reporting Program (UCR). Since only a small percentage of agencies submitted data directly to the FBI's UCR Program, the SAC relied on statistical estimates to measure the extent of crime in Missouri. Beginning in 2001, Missouri's Uniform Crime Reporting Program (UCR) began operation. Statutorily, Missouri law enforcement agencies are required to submit their crime statistics to Missouri's UCR Program. Using these data, the SAC no longer has to rely on statistical estimates. When comparing 2001 and later years' crime statistics to 2000 and prior years, users need to keep in mind two different statistical methods were employed to derive Missouri's crime totals.

The Crime Index is the sum of eight major offenses and is used to measure the magnitude of crime in the United States. Only eight major offenses are included in the Index because of their frequency of occurrence and the fact they are most likely to be reported to law enforcement agencies. These Index offenses are: murder, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. The first four make up the Violent Crime Index and the last four make up the Property Crime Index.

In 2004, 251,976 Crime Index offenses were reported in the State of Missouri. In 2004, one Index Crime was committed every 2.1 minutes. In 31.4 of every 100 Crime Index offenses, the cases were cleared by arrest or exceptional means.

### Violent Crime Index

Violent offenses made up 11.1 percent of the total 2004 Missouri Crime Index. There were 28,016 Violent Index offenses reported in 2004. A violent offense was committed in Missouri every 18.8 minutes. In 49.8 of every 100 Violent Index offenses, the cases were cleared by arrest or exceptional means. A brief analysis of each type of Violent Index offense is given below.

- ◆ 364 murders reported in 2004. While murder is the most serious Index offense, it made up only 0.1 percent of the total 2004 Missouri Crime Index. One murder was committed every 1.0 days. In 75.3 of every 100 murders, the cases were cleared by arrest or exceptional means.

### ***Of the index offenses reported in 2004:***

*11.1% were violent offenses*

*One violent crime was committed every 18.8 minutes*

**Between 2003 and 2004:**

*Violent Crime increased 3.7%*

→ *Murder increased 14.5%*

→ *Rape increased 5.5%*

→ *Robbery increased 6.2%*

→ *Aggravated Assault increased 2.6%*

- ◆ 1,469 forcible rapes reported in 2004. Forcible rape accounted for 0.6 percent of the total 2004 Missouri Crime Index. One forcible rape was committed every 6.0 hours. In 45.7 of every 100 forcible rapes, the cases were cleared by arrest or exceptional means.
- ◆ 6,586 robberies reported in 2004. Robbery accounted for 2.6 percent of the total 2004 Missouri Crime Index. One robbery occurred every 1.3 hours. In 24.3 of every 100 robberies, the cases were cleared by arrest or exceptional means.
- ◆ There were 19,597 aggravated assaults reported in 2004. Aggravated assault accounted for 7.8 percent of the total 2004 Missouri Crime Index. One aggravated assault occurred every 26.8 minutes. In 58.1 of every 100 aggravated assaults, the cases were cleared by arrest or exceptional means.

**Of the index offenses reported in 2004:**

*88.9% were property offenses*

*One property crime was committed every 2.3 minutes*

**Property Crime Index**

Property offenses made up 88.9 percent of the total 2004 Missouri Crime Index. There were 223,960 Property Index offenses reported in 2004. Property offenses accounted for \$317,220,361 in property stolen or destroyed. One such offense occurred every 2.3 minutes in the State. In 19.3 of every 100 Property Index offenses, the cases were cleared by arrest or exceptional means. A brief analysis of each type of Property Index offense is given below.

**Between 2003 and 2004:**

*Property Crime decreased 3.1%*

→ *Burglary declined 2.4%*

→ *Theft declined 2.0%*

→ *Motor Vehicle Theft increased 10.5%*

→ *Arson declined .5%*

- ◆ 39,985 burglaries reported in 2004. Burglary accounted for 15.9 percent of the total 2004 Missouri Crime Index. One burglary occurred every 13.1 minutes and \$51,615,682 in property / cash was stolen in 2004 due to this offense. In 16.2 of every 100 burglaries, the cases were cleared by arrest or exceptional means.
- ◆ 156,433 thefts reported in 2004. Theft accounted for 62.1 percent of the total 2004 Missouri Crime Index. One theft occurred every 3.4 minutes and \$85,477,272 in property / cash was stolen in 2004 due to this offense. In 20.5 of every 100 thefts, the cases were cleared by arrest or exceptional means.
- ◆ 25,655 motor vehicle thefts reported in 2004. Motor vehicle theft accounted for 10.2 percent of the total 2004 Missouri Crime Index. One motor vehicle theft occurred every 20.5 minutes and \$167,194,332 in property was stolen in 2004 due to this offense. In

17.0 of every 100 motor vehicle thefts, the cases were cleared by arrest or exceptional means.

- ◆ 1,887 arsons reported in 2004. Arson accounted for 0.7 percent of the total 2004 Missouri Crime Index. One arson occurred every 4.6 hours and \$11,603,714 in property was destroyed due to arson in 2004. In 16.9 of every 100 arsons, the cases were cleared by arrest or exceptional means.

In addition to crime index offense and arrest data, this publication contains data on domestic violence incidents, officers killed or assaulted in the line of duty, and law enforcement employment levels in the State of Missouri.

### **Domestic Violence**

In 2004, law enforcement agencies in Missouri reported 39,097 incidents of domestic violence. In these incidents, 51 were homicides.

*51 homicides in 2004 were domestic violence related.*

These included:

- ◆ 10,793 incidents of spousal abuse (includes former spouses).
- ◆ 12,065 incidents between individuals living together or individuals who have lived together in the past.
- ◆ 5,433 incidents between blood relatives.
- ◆ 3,465 incidents between couples with child(ren) in common.

*27.6% of all domestic violence incidents reported in 2004 involved spouses (includes former spouses).*

### **Law Enforcement Officers Killed**

In 2004, three officers were killed feloniously and two were killed accidentally in the line of duty in the State of Missouri.

*In 2004, 5 officers died in the line of duty.*

## INTRODUCTION

This publication is one in a series prepared by the Missouri State Highway Patrol, Statistical Analysis Center (SAC). It is designed to present data on crime and arrest activity in Missouri from 1995 through 2004 with special emphasis on the most recent year's crime and arrest activity (2004).

The crime and arrest data in this publication are segmented into ten parts. The first section displays the Missouri Crime Clock. This clock offers an overview of the frequency of occurrence of Crime Index offenses committed in the State in relation to time. The Crime Index is the sum of the eight major offenses used to indicate the occurrence of crime in the United States. The eight offenses making up the total Crime Index are: murder, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. The second section provides data related to Crime Index offenses committed in the State of Missouri. Its purpose is to provide a comparison of the various types of Crime Index offenses so their relative importance can be assessed. In addition, Crime Index activity is displayed by geographical regions of the State and also over time to observe trends. The third section presents data on arrest activity and clearance rates associated with Crime Index offenses as well as arrest activity associated with other classes of criminal offenses. These data provide an appreciation of criminal enforcement activity being performed in the State by class of crime. The fourth section provides a series of data and analysis related to each of the eight types of Crime Index offenses. Data are provided on crime activity, clearance rates, crime patterns, and arrest activity associated with each of these offenses. Section five provides summary data on domestic violence incidents committed in Missouri and identifies relationships between domestic violence victims and offenders. The sixth section provides summary data on Crime Index offenses and arrest activity for specific political subdivisions in the State. Sections seven and eight provide summary data on law enforcement officers killed and assaulted while on duty. Section nine provides uniform and civilian employment information for Missouri law enforcement agencies. Section ten provides data on law enforcement employees as well as the number of assaults on sworn personnel for specific political subdivisions in the State

Prior to 2001, data in this Digest were provided on a voluntary basis by Missouri law enforcement agencies to the Federal Bureau of Investigation's (FBI), Uniform Crime Reporting (UCR) Program. In 2001, state statute RSMo 43.505 was enacted requiring Missouri law enforcement agencies to report their UCR crime statistics to the Missouri UCR Program administered by the Missouri State Highway Patrol.

### ***Eight offenses make up the Crime Index. They are:***

- *Murder*
- *Rape*
- *Robbery*
- *Aggravated Assault*
- *Burglary*
- *Theft*
- *Motor Vehicle Theft*
- *Arson*

**Increases in crime activity may reflect the transition from a voluntary to mandatory UCR Program. Care is warranted when directly comparing crime statistics since 2001 to previous years for this reason.**

The national UCR Program was initiated in 1930 by the Committee on Uniform Crime Reports of the International Association of Chiefs of Police (IACP). This committee developed uniform offense and arrest classifications as well as reporting procedures which could be used by law enforcement agencies throughout the nation. The FBI was designated to administer the Program and became the national clearinghouse for UCR data. The Committee on Uniform Crime Reports of the IACP continues to serve the national Program in an advisory capacity. In 1966, the National Sheriff's Association also established a Committee on Uniform Crime Reports to act as an advisory body for this program and to promote reporting to the UCR Program.

Crime and arrest data are, for the most part, collected on a monthly basis by several methods in Missouri. The Missouri UCR Program provides report forms, tally sheets, and self-addressed envelopes to Missouri law enforcement agencies who complete and return them to the Program. Missouri city and county law enforcement agencies also have the option of reporting their crime activity on a Web-based UCR reporting application while State law enforcement agencies utilize an electronic spreadsheet to report their monthly crime activity. Data from all Missouri law enforcement agencies are moved to a central data repository maintained by the MSHP.

Data displays identifying specific political subdivision crime and arrest activity contain only activity reported to the UCR Program. It is important to note that statistics for a political subdivision include not only crime and arrest activity reported by a local law enforcement agency, but also crime and arrest activity reported by state agencies (e.g., MSHP, Department of Conservation, Water Patrol). No effort has been made to estimate individual law enforcement agency's crime and arrest activity.

Slight discrepancies may be found if comparisons are made with FBI UCR publications and this Digest covering the same subject matter for the State of Missouri. Although similar, estimation routines and rates per 100,000 population calculations for pre-2001 data used by the FBI are not the same as those in this Digest. Discrepancies also may be noted when examining actual reported figures. This is a result of updates having been made to UCR files between the time the FBI data were processed and the time the SAC analysis was performed. This report is merely a snap shot of crime summary data reported to the Missouri UCR Program. Law enforcement agencies continually update their

UCR data for a variety of reasons. For this reason, statistics in this report may be different than statistics obtained from other sources or reports.

## **1.0 MISSOURI CRIME CLOCK**

The Missouri crime clocks summarize criminal activity in the State during 2004 in relation to time. From this perspective, an appreciation of the relative frequency of various criminal offenses can be obtained. The clocks should be viewed with care. They are designed to convey annual crime experience by showing the relative frequency of occurrence of the index offenses. This mode of display should not be taken to imply a regularity in the commission of crime. Rather they represent the annual ratio of crime to fixed time intervals.

# MISSOURI CRIME CLOCK 2004

---

**One Index Crime Offense  
Every 2.1 Minutes**

**One Violent Crime  
Every 18.8 Minutes**

**One Property Crime  
Every 2.3 Minutes**

- One Murder Every 1.0 days
- One Forcible Rape Every 6.0 Hours
- One Robbery Every 1.3 Hours
- One Aggravated Assault Every 26.8 Minutes

- One Burglary Every 13.1 Minutes
- One Theft Every 3.4 Minutes
- One Motor Vehicle Theft Every 20.5 Minutes
- One Arson Every 4.6 Hours

## **2.0 MISSOURI CRIME INDEX COMPARISON ANALYSIS**

A series of tables and figures summarizes crime index offenses committed in the State of Missouri. The purpose of these displays is to compare the various types of crime index offenses being committed according to their relative contribution to the crime index. In addition, crime index offense rates are displayed by geographic regions of the State, and over time, in order to identify trends.

**TABLE 2.0.1  
CRIME INDEX OFFENSES<sup>1</sup>  
STATE OF MISSOURI  
2004**

OFFENSE	REPORTED	% OF TOTAL CRIME INDEX	% OF VIOLENT CRIME INDEX	% OF PROPERTY CRIME INDEX	RATE PER <sup>2</sup> 100,000 POPULATION <sup>3</sup>

NUMBER OF REPORTING AGENCIES <sup>2</sup>	246	250	246	243	246	244	564	593	600	605

<sup>1</sup> Beginning in 2001, RSMo 43.505 required all law enforcement agencies in Missouri to report their crime statistics to the Missouri State Highway Patrol - Uniform Crime Reporting Section. Due to the high compliance rate, 2001 and later year estimates will closely resemble their corresponding year actual crime totals.

<sup>2</sup> Number of law enforcement agencies reporting crime index offense activity to the UCR Program in a given year.

ARSON	44.6	43.0	42.0	39.3	38.9	40.7	46.0	40.2	33.2	33.1

<sup>1</sup> Prior to 2001, Missouri law enforcement agencies voluntarily reported crime index offense data. To account for non-reporting agencies, Crime Index Offense Rates for these years were based on mathematical estimates. In 2001, RSMo 43.505 mandated all Missouri law enforcement agencies to report crime index offense data to the Missouri Uniform Crime Reporting Program managed by the Missouri State Highway Patrol. For this reason, Crime Index Offense Rates for 2001 and later years are based on data reported by nearly 100% of Missouri law enforcement agencies. Users should keep in mind that transition from a voluntary to a mandatory crime reporting system may affect comparisons of 2001 and later year Crime Index Offense rates to prior years.

<sup>2</sup> Crime Index Offense Rates are computed on a per 100,000 population basis. See Glossary for explanation of computations used to obtain these rates.

**TABLE 2.0.4  
PROPERTY CRIME INDEX  
ECONOMIC ANALYSIS OF PROPERTY STOLEN / DESTROYED  
2003 - 2004**

TYPE	LOSS PER OFFENSE <sup>1</sup>		TOTAL LOSS <sup>2</sup>		PERCENT INCREASE/DECREASE
	2003	2004	2003	2004	
BURGLARY	\$1,286	1,291	\$52,930,407	\$51,615,682	-2.5%
THEFT	541	547	86,563,085	85,477,272	-1.3
MOTOR VEHICLE THEFT	6,738	6,520	193,502,210	167,194,332	-13.6
ARSON	11,953	6,146	22,759,941	11,603,714	-49.0
<b>TOTAL</b>	-----	-----	355,755,643	315,891,000	-11.2

<sup>1</sup> Dollar loss per offense is calculated using only those property offenses for which law enforcement agencies reported an actual dollar amount for the property stolen or destroyed.

<sup>2</sup> Total loss is calculated by multiplying the dollar loss per offense by the number of such offenses in 2004.

**FIGURE 2.0.1

### **3.0 MISSOURI ARREST ANALYSIS**

A series of tables and figures summarize Missouri crime index arrest clearance rates, actual arrest activity associated with crime index offenses, and arrest activity associated with all other classes of criminal activity reported to the UCR Program. The purpose of these displays is to provide an overview of criminal enforcement activity being performed in the State by class of crime. In addition, arrest rates are displayed over time in order to observe trends.

## 4.0 MISSOURI DETAIL CRIME INDEX ANALYSIS

A series of tables and figures summarizes crime activity, clearance rates, crime patterns, and arrest activity associated with specific types of crime index offenses committed in Missouri.

Detail analysis is provided for violent and property crimes reported in 2004.

## 4.1 MURDER

### DEFINITION

Murder and non-negligent manslaughter are the willful killing of one human being by another. Not included in this offense classification are deaths caused by negligence, suicide, accident, justifiable homicide (the killing of a felon by a peace officer in the line of duty or a private citizen during the commission of a felony), and attempts to murder (these are classified as aggravated assaults). Murder offenses are reported on a per victim basis.

### 2004 Summary

- ◆ *364 murders were reported in 2004.*
- ◆ *One murder occurred every 1.0 days.*
- ◆ *Murder accounted for 0.1 percent of the Total Crime Index and 1.3 percent of all Violent Index offenses.*
- ◆ *The murder rate per 100,000 population was 6.4.*
- ◆ *75.3 of every 100 murders were cleared by arrest or exceptional means.*
- ◆ *412 persons were reported arrested for murder in 2004. Of these, 88.9 percent were adults and 11.1 percent were juveniles. Of those arrested, 86.9 percent were male and 13.1 percent were female.*
- ◆ *Of murder victims reported in 2004, 74.3 percent were male and 25.7 percent were female. Of the victims, 87.2 percent were adults and 9.3 percent were juveniles.*
- ◆ *A firearm was used by 66.1 percent of the offenders associated with murders and 10.3 percent of the offenders used a knife.*

**MURDER SUMMARY: 2003 and 2004**

- ◆ *The murder offense rate increased 14.3% between 2003 and 2004.*

YEAR	OFFENSES	RATE PER 100,000 POPULATION
2003	318	5.6
2004	364	6.4
Percent of Change	14.5	14.3

<b>TOTAL</b>		<b>343</b>	<b>100.0</b>

<sup>1</sup>Victim data were obtained from the UCR Supplemental Homicide Report. The total number of victims in this table does not correspond to the 364 murders reported in 2004 because law enforcement agencies report murder offenses on a separate form entitled the Return A. Discrepancies may occur as a result of an agency updating or adjusting only the Return A.

<b>TOTAL</b>		<b>322</b>	<b>100.0</b>

<sup>1</sup>The 322 circumstances in this table are directly associated with the first victim and first offender in a murder incident. Victim and offender data were both obtained from the UCR Supplemental Homicide Report. An incident may involve multiple circumstances. Unknown circumstances are not included in total when calculating the percentage of total.

**FIGURE 4.1.1  
MURDER OFFENSE RATES, STATE OF MISSOURI<sup>1</sup>  
TIME SERIES**

<sup>1</sup> Prior to 2001, murder offense rates were based on estimated murder offenses in the State of Missouri. They are computed on a per 100,000 population basis. See Glossary for explanation of computations used to obtain these rates.

## 4.2 FORCIBLE RAPE

### DEFINITION

Forcible rape is the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force also are included. However, statutory rape (without force), sex attacks on males, and other types of sex offenses are not included in this category. Forcible rape offenses are reported on a per victim basis.

### ***2004 Summary***

- ◆ *1,469 rapes were reported in 2004.*
- ◆ *One rape occurred every 6.0 hours.*
- ◆ *Rape accounted for 0.6 percent of the Total Crime Index and 5.2 percent of all Violent Index offenses.*
- ◆ *The rape rate per 100,000 population was 25.8.*
- ◆ *Rape by force constituted 90.7 percent of all rapes while attempted rape accounted for 9.3 percent.*
- ◆ *In 2004, 45.7 of every 100 rapes were cleared by arrest or exceptional means.*
- ◆ *605 persons were reported arrested for rape. Of those, 82.3 percent were adults and 17.7 percent were juveniles.*

**FORCIBLE RAPE SUMMARY: 2003 and 2004**

## 4.3 ROBBERY

### DEFINITION

Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear. Robbery involves a theft or larceny but is aggravated by the element of force or threat of force. Robbery offenses are reported on an incident-by-incident basis.

### 2004 Summary

- ◆ *6,586 robberies were reported in 2004.*
- ◆ *One robbery occurred every 1.3 hours.*
- ◆ *Robbery accounted for 2.6 percent of the Total Crime Index and 23.5 percent of all Violent Index offenses.*
- ◆ *The robbery rate per 100,000 population was 115.5.*
- ◆ *A firearm was used in 43.8 percent of all robberies.*
- ◆ *Street / Highway robbery was the most prevalent class of robbery accounting for 59.0 percent of all such offenses.*
- ◆ *\$33,088,588 in property / cash was stolen in robberies.*
- ◆ *24.3 of every 100 robberies were cleared by arrest or exceptional means.*
- ◆ *2,056 persons were reported arrested for robbery in 2004. Of these, 81.8 percent were adults and 18.2 percent were juveniles.*

## 4.4 AGGRAVATED ASSAULT

### DEFINITION

Aggravated assault is an unlawful attack or attempted attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. All assaults or attempted assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under this category of offense. Aggravated assault offenses are reported on a per victim basis.

### 2004 Summary

- ◆ 19,597 aggravated assaults were reported in 2004.
- ◆ One aggravated assault occurred every 26.8 minutes.
- ◆ Aggravated assault accounted for 7.8 percent of the Total Crime Index and 69.9 percent of all Violent Index offenses.
- ◆ The aggravated assault rate per 100,000 population was 343.5.
- ◆ A firearm was used in 22.3 percent of the cases.
- ◆ 58.1 of every 100 aggravated assaults were cleared by arrest or exceptional means.
- ◆ 10,944 persons were arrested for aggravated assault in 2004. Of these, 88.7 percent were adults and 11.3 percent were juveniles.

## 4.6 THEFT

### DEFINITION

Theft is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Attempted thefts also are included. This category includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts or accessories, bicycle thefts, etc., in which no use of force, violence, or fraud occurs. It does not include embezzlement, "con" games, forgery, or worthless checks. Motor vehicle theft also is excluded inasmuch as it is a separate crime index offense. Theft offenses are reported on an incident-by-incident basis.

### **2004 Summary**

- ◆ *There were 156,433 thefts reported during 2004.*
- ◆ *In 2004, one theft occurred every 3.4 minutes.*
- ◆ *Theft accounted for 62.1 percent of the Total Crime Index and 69.8 percent of all Property Index offenses.*
- ◆ *The theft rate per 100,000 population in 2004 was 2,742.3.*
- ◆ *In 2004, 39.4 percent of all thefts involved the taking of vehicle parts / accessories or other types of property from a vehicle.*
- ◆ *Due to this offense, \$85,477,272 in property / cash was stolen in 2004.*
- ◆ *In 2004, 20.5 of every 100 thefts were cleared by arrest or exceptional means.*
- ◆ *30,619 persons were reported arrested for theft in 2004. Of these, 75.2 percent were adults and 24.8 percent were juveniles. Of those arrested, 62.1 percent were male and 37.9 percent were female.*

## 4.7 MOTOR VEHICLE THEFT

### DEFINITION

Motor vehicle theft is the theft or attempted theft of a motor vehicle. By definition, a motor vehicle is a self-propelled vehicle that runs on the surface and not on rails. Motor vehicles include automobiles, trucks, buses, motorcycles, motor scooters, snowmobiles, etc. Motor vehicle theft offenses are reported on a per vehicle basis.

### **2004 Summary**

- ◆ *There were 25,655 motor vehicle thefts reported during 2004.*
- ◆ *In 2004, one motor vehicle theft occurred every 20.5 minutes.*
- ◆ *Motor vehicle theft accounted for 10.2 percent of the Total Crime Index and 11.5 percent of all Property Index offenses.*
- ◆ *The motor vehicle theft rate per 100,000 population was 449.7 in 2004.*
- ◆ *The cost of vehicles stolen in 2004 was \$167,194,332.*
- ◆ *In 2004, 17.0 of every 100 motor vehicle thefts were cleared by arrest or exceptional means.*
- ◆ *4,236 persons were reported arrested for motor vehicle theft in 2004. Of these, 74.1 percent were adults and 25.9 percent were juveniles. Of those arrested, 83.6 percent were male and 16.4 percent were female.*

**MOTOR VEHICLE THEFT  
SUMMARY: 2003 and 2004**

## 4.8 ARSON

### DEFINITION

Arson is defined as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded. Arson offenses are reported on an incident-by-incident basis.

### 2004 Summary

- ◆ *There were 1,887 arsons reported during 2004.*
- ◆ *In 2004, one arson occurred every 4.6 hours.*
- ◆ *Arsons accounted for 0.7 percent of the Total Crime Index and 0.8 percent of all Property Index offenses.*
- ◆ *The arson rate per 100,000 population in 2004 was 33.1.*
- ◆ *Residential dwellings accounted for 36.7 percent of all types of property destroyed by arson.*
- ◆ *Motor vehicles accounted for 31.8 percent of all types of property destroyed by arson.*
- ◆ *Arson accounted for \$11,603,714 in property loss in 2004.*
- ◆ *In 2004, 16.9 of every 100 arsons were cleared by arrest or exceptional means.*
- ◆ *469 persons were reported arrested for arson in 2004. Of these, 59.7 percent were adults and 40.3 percent were juveniles. Of those arrested, 78.9 percent were male and 21.1 percent were female.*

**ARSON SUMMARY: 2003 and 2004**

## **5.0 MISSOURI DOMESTIC VIOLENCE ANALYSIS**

This section presents data on Domestic Violence activity in Missouri. Detail analysis is provided on:

- Domestic Violence Incidents
- Domestic Violence Related Homicides

## 5.1 DOMESTIC VIOLENCE RELATED INCIDENTS

### DEFINITION

Domestic violence incidents are reported whether or not an arrest is made and include any dispute arising between spouses, former spouses, persons with child(ren) in common regardless of whether they reside together, persons related by blood, persons related by marriage, non-married persons currently residing together, and non-married persons who have resided together in the past. Domestic violence incidents are reported when an officer believes a dispute crosses an abuse threshold as indicated by harassment, stalking, coercion, assault, sexual assault, battery, or unlawful imprisonment. Domestic violence incidents are reported by the highest ranked relationship between victim and offender, regardless of the number of persons or potential multiple relationships present during an incident.

### **2004 Summary**

- ◆ *There were 39,097 domestic violence incidents reported in 2004.*
- ◆ *In 2004, 9,449 domestic violence incidents involving spouses were reported.*
- ◆ *There were 8,914 domestic violence incidents involving persons residing together in 2004.*
- ◆ *In 2004, 5,433 domestic violence incidents involving blood relatives were reported.*

Note 1: The Missouri UCR Program does not require law enforcement agencies to report victim / offender relationships in domestic violence incidents. For this reason, the sum of the victim / offender relationship may not equal total domestic violence incidents.

## 5.2 DOMESTIC VIOLENCE RELATED HOMICIDES

### DEFINITION

Domestic violence related homicides are the willful killing of one human being by another and the victim and offender are related by blood, related by marriage, reside together, have resided together in the past, or are romantically involved. Suicides following domestic violence homicides are not included. Domestic violence related homicides are reported on a per victim basis.

### 2004 Summary

- ◆ *There were 51 domestic violence related homicides reported during 2004.*
- ◆ *Wives were killed in 8.2% of all domestic violence related homicides.*
- ◆ *Girlfriends were killed in 18.4% of all domestic violence related homicides.*
- ◆ *Mothers were killed in 6.1% of all domestic violence related homicides.*
- ◆ *Sons were killed in 6.1% of all domestic violence related homicides.*
- ◆ *Daughters were killed in 6.1% of all domestic violence related homicides.*

**TABLE 5.2.1**  
**DOMESTIC VIOLENCE RELATED HOMICIDES**  
**VICTIM / OFFENDER RELATIONSHIP**  
**2004**

VICTIM / OFFENDER RELATIONSHIP <sup>1</sup>	NUMBER OF HOMICIDES	PERCENT OF TOTAL
Husband	7	13.7
Wife	4	7.8
Common-Law Husband	0	0.0
Common-Law Wife	1	2.0
Mother	3	5.9
Father	0	0.0

Daughter	3	5.9
Brother	0	0.0
Sister	2	3.9
In-Law	1	2.0
Stepfather	0	0.0
Stepmother	0	0.0
Stepson	0	0.0
Stepdaughter	1	2.0
Other Family Member	5	9.8
Acquaintance	2	3.9
Friend	0	0.0
Neighbor	0	0.0
Boyfriend	7	13.7
Girlfriend	9	17.6
Ex-Husband	1	2.0
Ex-Wife	0	0.0
Homosexual / Lesbian Partner	1	2.0
Other known Relationship	1	2.0
Unknown Relationship	0	0.0
<b>Total</b>	<b>51</b>	<b>100.0</b>

◆ 22.5% of the victims of domestic violence related homicides were husbands or wives.

<sup>1</sup> Relationship of the victim to the offender. Excluded are two incidents between acquaintances/friends/neighbors.

## **6.0 MISSOURI LAW ENFORCEMENT AGENCY CRIME AND ARREST ANALYSIS**

A series of tables summarizes crime index offenses and arrest activity associated with law enforcement jurisdictions in the State of Missouri. These data displays provide an overview of the extent of the crime problem within Missouri communities.

Population figures in this section are estimates based on the last census taken by the U.S. Census Bureau and represent the population associated with the reporting agency's jurisdiction. For rural counties, the figures represent the jurisdiction normally covered by sheriff's departments and/or county police departments. These population figures are computed by subtracting the population of all incorporated municipalities within a county having their own law enforcement agencies from the total population of the county.

## **7.0 MISSOURI LAW ENFORCEMENT OFFICERS KILLED**

A series of tables and figures are presented related to the number of sworn law enforcement officers killed in the line of duty in the State of Missouri. The purpose of these displays is to provide an appreciation of the extent and nature of this serious problem and to increase the awareness of the sacrifice made by the law enforcement community in protecting the lives, rights, and property of Missouri citizens.

## 7.0 MISSOURI LAW ENFORCEMENT OFFICERS KILLED

The information in this section is based on monthly reports submitted by law enforcement agencies to Missouri's Uniform Crime Reporting Program. Additional information on officers killed also was obtained from field investigations conducted by the FBI and reported in the Law Enforcement Officers Killed and Assaulted publications.

Officers killed in the line of duty include those officers killed by felonious acts, as well as by accident or negligence. Excluded from this section are fatalities resulting from activities not within the official realm of law enforcement duties or deaths attributed to natural causes. It should be noted that this section contains statistics relative to felonious and accidental, line-of-duty deaths of duly sworn Federal, State, and local law enforcement officers having full arrest powers.

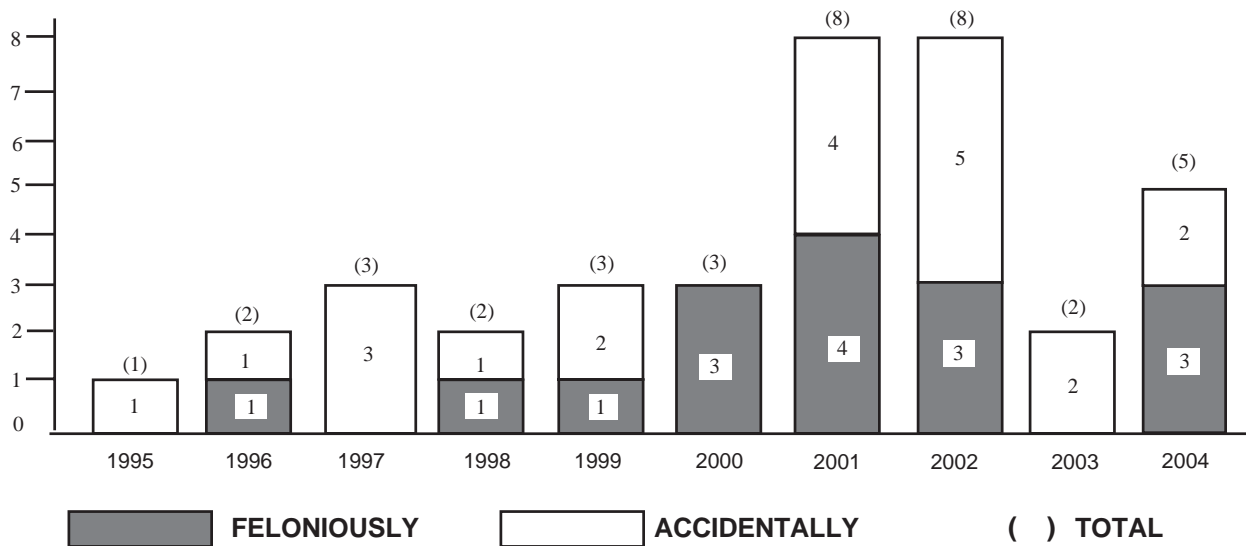

### 2004 Summary

- ◆ *In 2004, three officers were killed feloniously and two were killed accidentally in the line of duty in the State of Missouri.*
- ◆ *Since 1995, 37 officers have been killed in the line of duty. Of these, 16 or 43.2 percent were killed by felonious acts and 21 or 56.8 percent were killed in accidents or by negligence.*

## **8.0 MISSOURI LAW ENFORCEMENT OFFICERS ASSAULTED**

A series of tables and figures are presented on sworn law enforcement officers assaulted in the line of duty in the State of Missouri. These displays have been included to provide a better perspective of the risks law enforcement officers face in performing their duties and to assist in formulating policies and procedures which may reduce these risks in the future.

## 8.0 MISSOURI LAW ENFORCEMENT OFFICERS ASSAULTED

Data in this section are based on monthly reports of officer assaults submitted by law enforcement agencies to Missouri's Uniform Crime Reporting Program. Officer assaults are defined as any unlawful attack by a person on a law enforcement officer in the performance of his / her duty. Officer assaults include those assaults which result in serious injury to the officer, all assaults in which the assailant used a weapon which could have caused serious injury or death, and assaults on officers beyond mere verbal abuse or minor resistance to an arrest. Assaults resulting in the death of a law enforcement officer are not included in this section, but can be found in Section 7.0 of this report. Assaults committed on federal law enforcement officers in the State of Missouri are not included in this section.

### **2004 SUMMARY ANALYSIS**

- ◆ *There were 2,619 officer assaults reported during 2004.*
- ◆ *For every 100 officers in the State of Missouri, there were 18.9 assaults in 2004.*
- ◆ *Of the 2,619 officer assaults in 2004, 541 or 20.7 percent resulted in injury to an officer.*
- ◆ *One officer was assaulted in the State every 3.3 hours in 2004. In addition, one assault resulting in the injury of an officer occurred every 16.2 hours.*
- ◆ *In 2004, the clearance rate for officer assaults in the State was 89.5 compared to 89.3 in 2003.*
- ◆ *In 2004, 81.0 percent of all assaults on officers involved physical force and 19.9 percent involved a weapon.*
- ◆ *Of all officer assaults in 2004, 70.9 percent occurred from 4:00 p.m. through 3:59 a.m.*
- ◆ *The situation resulting in the greatest number of officer assaults in 2004 was disturbance calls accounting for 32.6 percent of the total.*
- ◆ *Attempting to make an arrest accounted for 16.8 percent of the officer assault cases.*

**FIGURE 8.0.1  
MISSOURI LAW ENFORCEMENT ASSAULT CLOCK<sup>1</sup>  
2004**

**ONE ASSAULT ON A LAW ENFORCEMENT OFFICER OCCURRED EVERY 3.2 HOURS.**

**ONE ASSAULT RESULTING IN INJURY TO A LAW ENFORCEMENT OFFICER OCCURRED EVERY 16.1 HOURS.**

<sup>1</sup> The Law Enforcement Assault Clock should be viewed with care. It is designed to convey annual reported officer assault activity by showing its relative frequency of occurrence. This method of display should not be taken to imply a regularity in the commission of officer assaults; rather it represents the annual ratio of officer assaults to fixed time intervals.

## MISSOURI LAW ENFORCEMENT OFFICERS ASSAULTED SUMMARY

2003 AND 2004

YEAR	ASSAULTS	ASSAULTS/ <sup>1</sup> 100 OFFICERS	ASSAULT CLEARANCE RATE
2003	2,522	18.3	89.3
2004	2,619	18.9	89.5
Percent of Change	3.8	3.2	0.3

<sup>1</sup> Prior to 2001, assaults per 100 officers were based on estimates from data of agencies reporting a full 12 months of officer assault activity. Since 2001, this rate is based on officer assault activity reported to the Missouri UCR Program.

## **9.0 MISSOURI LAW ENFORCEMENT EMPLOYMENT**

A series of tables presents data on law enforcement personnel resources in the State of Missouri. The purpose of these displays is to provide an assessment of the amount and general composition of law enforcement resources available in the State.

## 9.0 MISSOURI LAW ENFORCEMENT EMPLOYMENT

Data in this section are drawn from annual reports on employment submitted by law enforcement agencies to Missouri's UCR Program. Employment figures include full-time sworn officers with full arrest powers, and civilian employees an agency has on its payroll as of October 31 of each year. They do not include part-time or auxiliary officers. This section does not include employment data for federal law enforcement agencies whose jurisdictional responsibilities encompass the State of Missouri.

### 2004 Summary

- ◆ *Law enforcement agencies reported 19,623 persons employed on a full-time basis in 2004.*
- ◆ *Of the 19,623 full-time employees of Missouri law enforcement agencies, 70.7 percent were sworn officers and 29.3 percent were civilians.*
- ◆ *There were 2.4 sworn officers per 1,000 population in the State in 2004.*

## **10.0 MISSOURI LAW ENFORCEMENT AGENCY EMPLOYMENT / ASSAULT ANALYSIS**

A series of tables summarizes the number of law enforcement employees, as well as assaults on sworn personnel associated with law enforcement jurisdictions reporting to Missouri's Uniform Crime Reporting Program. Data displays provide an overview of law enforcement personnel resources and the problem of officer assaults within Missouri communities.

## 10.0 MISSOURI LAW ENFORCEMENT AGENCY EMPLOYMENT / ASSAULT ANALYSIS

### 2004 Summary

Officer assaults are defined as the unlawful attack by a person on a law enforcement officer in the performance of his / her duty. Officer assaults include those which result in serious injury to the sworn officer, all assaults in which the assailant used a weapon which could have caused serious injury or death, and assaults on officers beyond mere verbal abuse or minor resistance to an arrest. Assaults resulting in the death of a law enforcement officer are not included, but can be found in Section 7.0 of this report.

Employment information reflects a count of full-time sworn officers with full arrest powers and civilian employees the agency has on its payroll as of October 31 of each reporting year. It does not include part-time employees or auxiliary officers.

Population figures in this section are estimates based on the last census taken by the U.S. Census Bureau and represent the population associated with the reporting agency's jurisdiction. For rural counties, the figures represent the jurisdiction normally covered by sheriff's departments and/or county police departments. These population figures are computed by subtracting the population of all incorporated municipalities within a county having their own law enforcement agencies from the total population of the county.

- ◆ *In 2004, there were 13,872 full-time officers in Missouri.*
- ◆ *64.0% of the full-time officers work for municipal police departments, 24.0% work for county sheriff departments, 10.7% work for state agencies, and 1.3% work for colleges / universities police departments.*

Note 1: With the exception of Southwest MO State University which reports through the Springfield Police Department, law enforcement agency reports through county sheriff's office.

Note 2: Offenses, Arrests, and Law Enforcement Assaults for state agencies are reported in the jurisdiction in which they occurred.

## **GLOSSARY**

## GLOSSARY

**ADULT:** A person 18 years of age or older.

**ARREST:** Taking into physical or other legal custody for committing an offense in the local reporting jurisdiction. Arrests for all criminal offenses are scored. Arrests for ordinance violations are included. Arrests for traffic offenses, with the exception of driving under the influence of intoxicants and arrests in connection with negligent manslaughter in traffic accidents, are not scored. Included are those persons arrested but released without being formally charged.

**ASSAULT:** Officer assaults are defined as any unlawful attack by a person on a law enforcement officer who is in the performance of his / her duty. Officer assaults include those which result in serious injury to the sworn officer, all assaults in which the assailant used a weapon which could have caused serious injury or death, and assaults on officers that were beyond mere verbal abuse or minor resistance to an arrest.

**ASSAULTS PER 100 OFFICERS RATE:** This rate is an indicator of reported officer assault activity standardized by the number of officers employed by the agencies reporting the activity. The officer assault rate formula is:

$$\frac{\text{Number of Officer Assaults} \times 100}{\text{Number of Law Enforcement Officers Employed}}$$

Prior to 2001, assaults per 100 officers were based on estimates from data of agencies reporting a full 12 months of officer assault activity. Since 2001, this rate is based on officer assault activity reported to the Missouri UCR Program.

**ASSIGNMENT:** These categories identify the specific assignment of an officer at the time of the assault. Two-Man Vehicle and One-Man Vehicle pertain to uniformed officers on patrol. Special Assignment pertains to those non-uniformed officers functioning as detectives or on special assignment. Other Assignment pertains to those officers assaulted while functioning in some other capacity, such as foot patrol, off-duty, etc. The term "assisted" refers to law enforcement assistance only.

**CLEARANCE:** The resolution of a criminal offense or an assault on an officer by the arrest, charging, and turning over to the court for prosecution one or more persons alleged to have committed a crime or assault on an officer. An offense also can be cleared by exceptional means when the law enforcement agency has: 1) established the identity of the offender, 2) has enough information to support an arrest, charge, and prosecution in court, 3) the exact location of the offender is known so that he / she could be taken into custody, and 4) there is some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender, (ex., offender dies).

**CLEARED OFFENSES ONLY JUVENILES:** The number of clearances for an offense in which only juveniles were arrested or were identified as the offender but, for some valid reason, could not be arrested divided by the total number of clearances for that offense expressed as a percentage. The formula is:

$$\frac{\text{Number of Offenses Cleared Involving Only Juveniles}}{\text{Number of Clearances}} \times 100$$

**CLEARANCE RATE (Assault on an Officer):** The number of clearances divided by the total number of assaults, expressed as a percentage. The formula is:

$$\frac{\text{Number of Clearances}}{\text{Number of Assaults}} \times 100$$

**CLEARANCE RATES (Offenses):** The number of clearances divided by the total number of offenses, expressed as a percentage. The formula is:

$$\frac{\text{Number of Clearances}}{\text{Number of Offenses}} \times 100$$

**CRIME INDEX:** The Crime Index is the sum of the eight major offenses used to indicate the occurrence of crime in the United States. They were selected because of their frequency of occurrence and because they are most likely to be reported to a law enforcement agency. The eight offenses are: murder, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. The first four make up the Violent Crime Index and the last four make up the Property Crime Index. Definitions of each of the offenses making up the Crime Index are provided in the section entitled "Missouri Detail Crime Index Analysis". In addition, refer to Crime Index Offense in this section for an explanation of how each type of offense is reported to the UCR Program.

**CRIME INDEX OFFENSE:** In the UCR Program, the offenses of murder, forcible rape, and aggravated assault are crimes against persons. For these crimes, one offense is counted for each victim. Robbery, burglary, theft, motor vehicle theft, and arson are crimes against property. For these crimes, with the exception of motor vehicle theft, one offense is counted for each distinct operation. In the case of motor vehicle theft, one offense is counted for each stolen vehicle.

**CRIME INDEX OFFENSE ESTIMATES:** Estimation routines were used in the Digest to identify the actual number of index crimes occurring in the State on an annual basis. They are designed to compensate for non-reporting and incomplete reporting of such offenses by Missouri law enforcement agencies. The following procedures and formulas were used to obtain statewide crime index offense estimates:

- Law enforcement agencies in the State of Missouri were categorized into Groups. The following categories were used:

Municipal agency - 250,000 and over  
 Municipal agency - population 100,000 - 249,999  
 Municipal agency - population 50,000 - 99,999

Municipal agency - population 25,000 - 49,999  
 Municipal agency - population 10,000 - 24,999  
 Municipal agency - population 2,500 - 9,999  
 Municipal agency - population under 2,500  
 Rural Sheriff's Department  
 Suburban Sheriff's Department and County Police

- For those law enforcement agencies within a group reporting six months or more, a yearly estimate of their crime index offenses was obtained using the following formula:

$$\frac{\text{Crime Index Offenses Reported}}{\text{No. of Months Reported}} \times 12 = \text{Yearly Crime Index Offenses}$$

- For each group, the yearly crime index offenses for all law enforcement agencies reporting six months or more and their jurisdiction's population were summed and the following group crime index rate was computed.

$$\frac{\text{Sum of Rpt. Agency's Yearly Crime Index Offenses}}{\text{Sum of Rpt. Agency's Population}} = \text{Group Crime Index Rate}$$

- For those law enforcement agencies reporting less than six months or no activity at all within a group, their yearly crime index offenses were computed using the following formula:

$$\text{Law Enforcement Agency Population} \times \text{Group Crime Index Rate} = \text{Yearly Crime Index Offenses}$$

- Yearly crime index offenses computed above for all Missouri law enforcement agencies were then summed in order to obtain a statewide yearly crime index offense estimate for use in this Digest.

No estimation routines were used in data displays identifying specific law enforcement agency's yearly crime activity in the Digest. In these data displays, only crime activity reported to the UCR Program is displayed.

**EMPLOYMENT:** The number of persons, either sworn officers with full arrest powers or civilians, working in a full-time capacity and appearing on the payroll of a Missouri law enforcement agency as of October 31 of a reporting year.

**INDEX CRIMES:** Index Crimes are the eight major offenses used to indicate the occurrence of crime in the United States. They were selected due to their frequency of occurrence and because they are most likely to be reported to a law enforcement agency. The eight offenses are: murder, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson.

**INDEX CRIMES PER OFFICER RATE:** This rate indicates the number of index crime incidents in a community in relation to the law enforcement agency's sworn officer resource availability. The formula is:

$$\frac{\text{Number of Index Crimes}}{\text{Number of Law Enforcement Officers Employed}}$$

**JUVENILE:** A person under 18 years of age.

**JUVENILE ARREST:** Juvenile arrests do not include law enforcement contacts with juveniles where no offense has been committed. Juveniles taken into custody for their own protection, such as in neglect cases, are not scored since they have not committed any crime.

**OFFICERS PER 1,000 POPULATION RATE:** This rate is an indicator of a law enforcement agency's sworn officer resource availability in relation to the population of the community it serves. The formula is:

$$\frac{\text{Number of Officers Employed} \times 1,000}{\text{Community Population}}$$

**PERCENT CHANGE:** The formula is:

$$\frac{\text{Value in Current Period} - \text{Value in Base Period}}{\text{Value in Base Period}} \times 100$$

**POPULATION:** Total number of persons residing in a jurisdiction based on United States Census data.

**QUARTILE:** The value marking the boundary between two consecutive intervals in a frequency distribution of four intervals with each containing one quarter of the total population.

**RATE PER 100,000 POPULATION:** Rates per 100,000 population are indicators of activity standardized by the population of those law enforcement agencies associated with the activity. Three types of rates are provided: statewide crime index offense rates, reporting agency crime index offense rates, and arrest rates.

The statewide offense rate formula is:

$$\frac{\text{Number of Offenses Reported} \times 100,000}{\text{Population of all Agencies Reporting}}$$

The reporting agency offense rate formula is:

$$\frac{\text{Number of Offenses Reported} \times 100,000}{\text{Population of Reporting Agency(ies)}}$$

The arrest rate formula is:

$$\frac{\text{Number of Arrests Reported} \times 100,000}{\text{Population of Reporting Agency(ies)}}$$

**STRONG ARMED ROBBERY:** A robbery wherein no weapons were used but tactics (limited to the use of personal weapons such as hands, arms, feet, fists, teeth, etc.) were employed to deprive the victim of his / her property.

**TIME SERIES:** Time-series analysis was used in the Digest to forecast future crime and arrest activity. With this technique, data for past periods were used as the basis for projecting levels of future activity. Ten years of past data were used to make these projections.

Crime and arrest rates on a per 100,000 population basis were used in making the forecasts. These rates reflect crime and arrest activity in relation to population.

The technique used to project crime and arrest activity was Exponential Smoothing (available through the SAS Econometrics and Time Series software package). Use of this technique took into consideration the limited number of data points in the time series, as well as whether or not the time series was best characterized as constant, linear, or non-linear. In applying the smoothing technique, greater weight was given to the more recent data values than to the earlier data values when projecting future levels of activity.
